

S&C; Integration Calendar

Weeks 4-12 -- Strength + Bike | The Roadman Method

How the three S&C; phases integrate with the 12-week cycling programme.

Week	S&C; Phase	Sessions/Wk	Focus
1-3	No gym	0	Establish riding structure first
4-6	Foundation	2 x 30 min	Movement quality, activation
7-8	Build	2 x 30 min	Increase load, recruit type 2
9-12	Maintain	2 x 25 min	Preserve gains, reduce volume

"Even if you were to cut 60 minutes out total of your riding per week and dedicated that to two 30-minute strength training sessions, I would be shocked if you did not feel significantly better."

-- Derek Teel -- Roadman Cycling Podcast
