Week 4 -- Three-Phase Strength | The Roadman Method

"It's pretty undeniable at this point that strength training benefits just about everything on the bike with the exception of your VO2 max. Even longer efforts have been shown to be improved by strength training."

-- Derek Teel -- Roadman Cycling Podcast

Three-phase cycling-specific S&C; programme. Dumbbell-led, bodyweight-supported, two 30-minute sessions per week. No heavy barbell movements.
