

Decision Tree Cards

Week 11 -- When Life Interferes | The Roadman Method

Missed a Session

Long ride? Shift to tomorrow. If not, add 30 min next week.

Quality session? Do not double up. Move on.

Easy ride? Let it go.

Feeling Ill

Above the neck? Easy Z2 only, see how you feel at 20 min.

Below the neck (fever, chest)? Full rest. Wait 48hrs after symptoms clear.

Return: first ride 45 min Z2 at RPE 3.

Travel Week

1-2 days: skip travel day, train normally before/after.

3-5 days: hotel gym for S&C.; One bodyweight session replaces bike.

Full week: treat as recovery week.

Work Stress Spike

Quality planned? Downgrade to Z2.

Long ride? Shorten by 30%.

Whole week? 3 sessions, all Z2. Protect sleep.

Motivation Drop

One bad day? 30 min, no data, just ride.

Bad week? Review your primary goal.

2+ weeks? Consider fatigue. Unplanned recovery week.
