

The Roadman Method Framework Summary

Week 11 -- Complete System | The Roadman Method

The Five Pillars

Pillar	Core Principle	Weekly Action
Coaching	80% easy, 20% hard	Follow template. Log RPE. Respect zones.
Nutrition	Fuel the work, never restrict on hard days	Hit carb targets. Protein floor daily.
Strength	2 x 30 min/week, dumbbell-led	Foundation, Build, Maintain. Easy days.
Recovery	Sleep, readiness, recovery weeks	7.5+ hrs. Daily check. 3:1 mesocycles.
Community	Accountability, joy, the craft	Post. Ride with others. Remember why.

The System in 10 Sentences

1. Start with an honest audit of where you actually are.
2. Build a weekly architecture around the hours you actually have.
3. Fuel the work properly -- in-ride, daily, and around training.
4. Add two 30-minute strength sessions per week from Week 4.
5. Prioritise sleep and recovery as training.
6. Check in at Week 6 and recalibrate if the data demands it.
7. Periodise into mesocycles -- 3 weeks load, 1 week recovery.
8. Manage body composition through timing and quality, never restriction.
9. Train the brain -- self-talk, pacing, stress management.
10. Become your own coach -- the weekly review keeps the system running.

"You're not done yet."
